

Polyester cloth tape

Introduction

Dedicated to the wiring harness winding in the automotive industry. Using excellent substrates, high-quality strong adhesive tape, strong anti-aging ability. It has strong surface anti-fouling ability and high-temperature stability.

Specifications

» Polyester cloth tape

No	ST-DL25	
Substrate	Material	Polyester cloth
	Colour	Black
	Glue	Hot melt adhesive
Specification	Length (m)	Optional
	Width (mm)	Optional
	Thickness (mm)	0.25
General characteristics	Tensile strength (N / cm)	180
	Elongation(%)	15
	Steel plate peeling force (N / cm)	2.5
	Operating temperature(°C)	-40—150
	Low speed unwinding force (N / cm)	2—6
	Wear resistance	1000 times

» Advantage

1.Strong adhesion	2.Soft	3.High temperature stability
4.No harmful substances	5.Low temperature resistance	6.Easy to operate
6.Anti-corrosion	7.Not easy to wear	8.Strong surface anti-fouling ability

» Uses

Dedicated to the wiring harness winding in the automotive industry. Because this product uses excellent base material, it has strong surface anti-fouling ability and high temperature stability.

» Range of use

This tape is mainly used for automobile wiring harness. Not easy to tear, waterproof and anti-aging. It can be flame-retardant and fire-proof, and it can be used for positioning around the car to reduce the vibration and noise of the car.
